# When shit becomes Art

**Stan Nobhead**  
**Art Expert**

The notion of white canvas project a sense of emptiness, void; that life simply doesn't existed for the Artist. As if the work is done by the deceased. Gone from our midst... It is the most expressive exhibition I have being to... Just breathtaking and amazing collection of white canvas....

What's the point?  
It's just blank  
Canvas....

Hosted at White Gallery

Man...  
That is the best I  
have  
Seen for long

Artist: John Blank

Being white convey our supremacy in Art....  
White as in pure, innocent, democratic, free  
and liberated.  
Unlike these darkies and their medieval  
primitive ways..  
Backward, uneducated and littering our city....  
With their cultures and all that loud noise  
music they blast our ears with....

**JAYHOODY COME TO TOWN**

The unholy work of the devil

Exploring every aspects of emotions...  
Anxiety, fear fright,paranoid from going out.  
Developing into psychotic mind, marinated  
with insanity.....

I venerated into a state of permanent  
depression....  
And out of that I decided to strike back at  
these savage Aliens. I came out with
